

The Next Level

About:

'The Next Level' is a group of students, which organize events & competitions in our college. It is a self-funded group. They took a pledge to organize events which help every individual to enhance their hard & soft skills as well as hobbies in every aspect so the students can fill the gap between the bookish knowledge and industry needs.

Organized Events:

This group was established in 2017 by then-second year students since then, they have organized many events and programs covering almost every field. They have coordinated events based upon arts, sports, drama, quizzes, photography, technical competitions, and many more to make students industry-ready and improve their employability skills.

Vision:

'The Next Level' heartily believes in teamwork and not on face value and appreciates views of every individual. They are also known for their unbiased judgments and not indulging in any type of college politics.

'The main agenda of this group is to provide a platform to the students so that they can explore their minds and show their hidden talent.'
